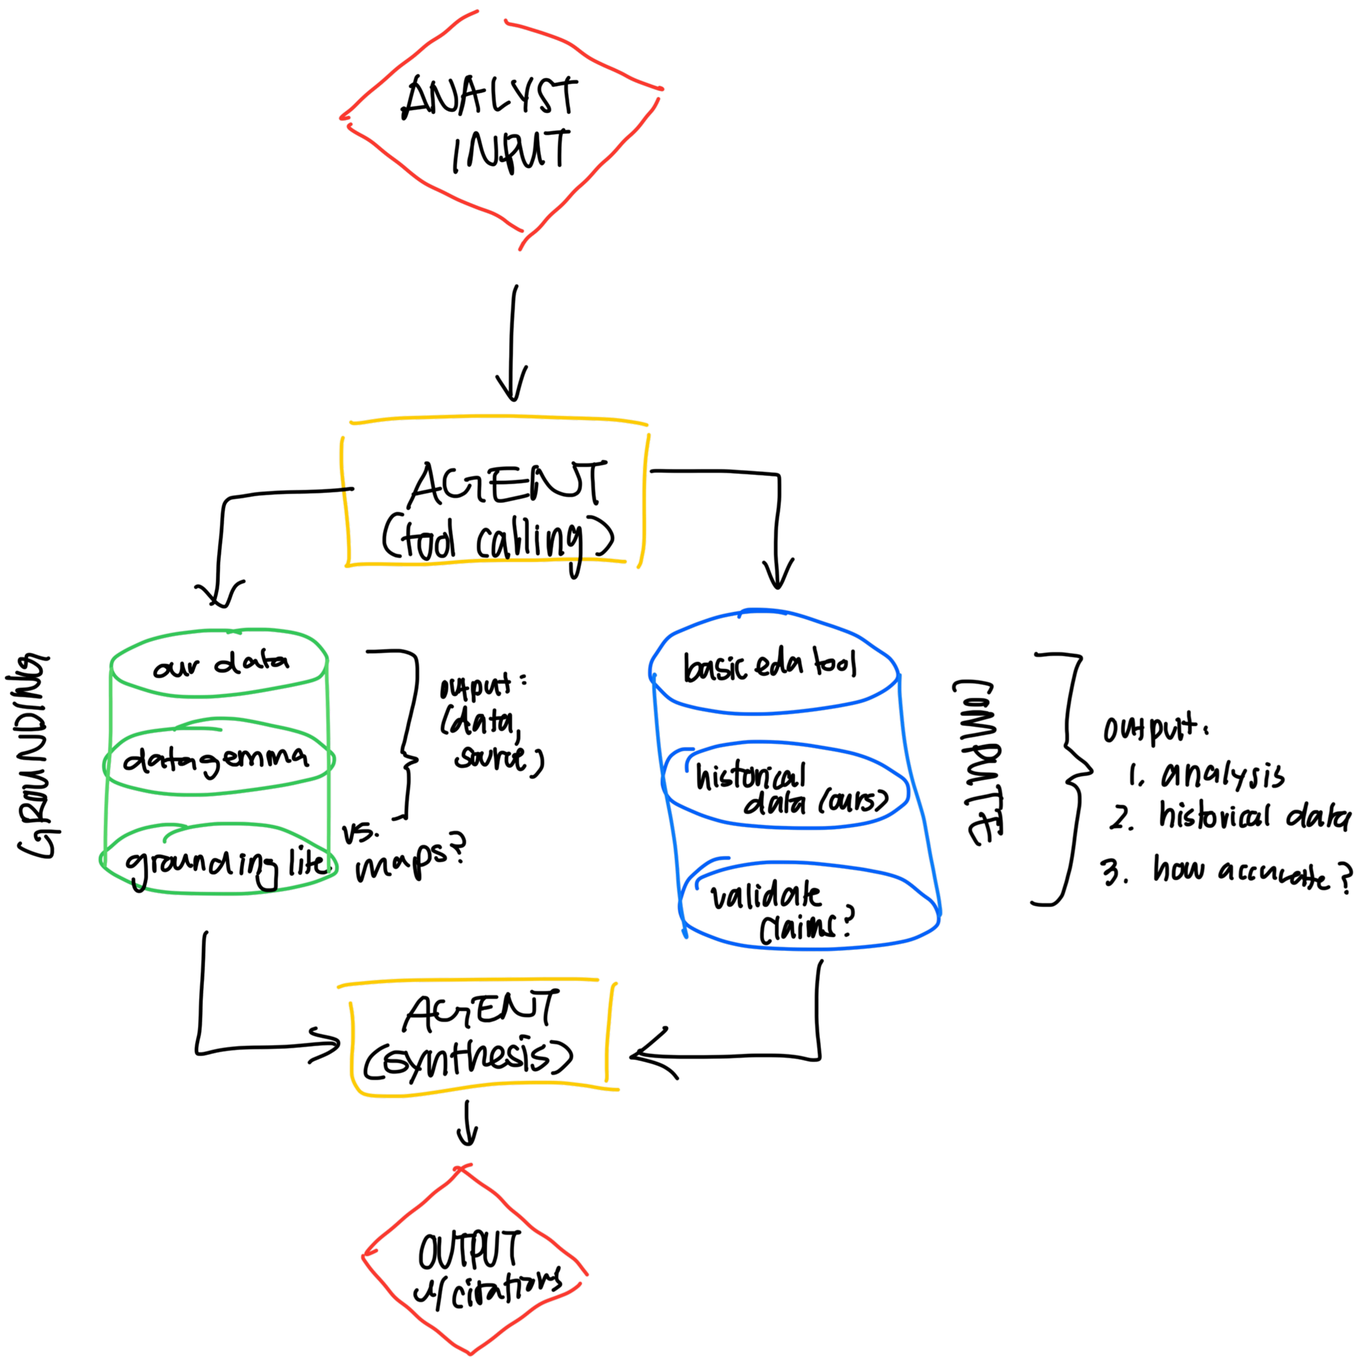
# EDA WORKFLOW



GROUNDING

1. Contextualizing stats
   - news sources
   - explanation
2. Regulations
   - notices about regulations in the area, etc.
3. Internal Data (Vertex AI)
   - upload Projectr's past reports into VAI data store
   - can compare against Projectr's internal knowledge base
4. Local sentiment
   - Google search → local news
